

ADITEC's research partners are mainly based in Europe, but also excellent groups from the US join the project. Scientists from 13 countries and 42 research partners collaborate in the ADITEC project:

#### Austria

- Valneva Austria GmbH (formerly Intercell)
- Institute for Biomedical Aging Research / University of Innsbruck
- Hookipa Biotech GmbH

#### Belgium

- GSK Biologicals

#### Denmark

- Statens Serum Institut

#### France

- Institut Pasteur
- French Atomic Energy
- Institut de Biologie et Chimie des Protéines (CNRS)
- Medicine in need

#### Germany

- Max-Planck-Institute for Infection Biology

## Iceland

- deCODE Genetics

## Ireland

- Sigmoid Pharma

## Italy

- Sclavo Vaccines Association
- GlaxoSmithKline Vaccine
- University of Siena
- Fondazione Humanitas per la Ricerca
- Istituto Superiore di Sanità
- ALTA s.r.l.u.
- REITHERA srl
- Microbiotec s.r.l.
- GSK VACCINES INSTITUTE FOR GLOBAL HEALTH SRL
- VisMederi s.r.l.

## Norway

- Vaccibody

## Sweden

- University of Gothenburg
- Duotol AB
- Abera Bioscience AB

## Switzerland

- University of Geneva
- Fondazione per l'Istituto di Ricerca in Biomedicina
- World Health Organization

## The Netherlands

- Leiden University Medical Center
- Tuberculosis Vaccine Initiative
- Utrecht University
- Erasmus Medical Center
- Crossbeta Biosciences
- Bioneedle Group

## United Kingdom

- University of Surrey
- University of Oxford
- Kings College London
- National Institute for Biological Standards and Control / Medicines and Healthcare Products Regulatory Agency (MHRA/NIBSC)
- Imperial College London

## United States of America

- Emory University Atlanta
- Infectious Disease Research Institute Seattle
- Seattle Biomedical Research Institute
